MAGNETIZER FOR DRINKING WATER

For Domestic RO water purifier and filter

Crystal Processor 6 ND

Crystal Processor 10 ND

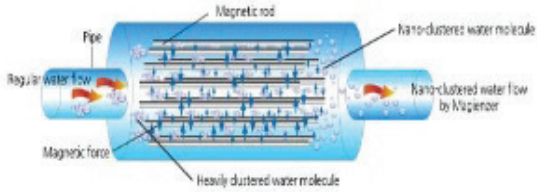

For Commercial RO water purifier and filter

HYDROION

- Unique safe & healthy Drinking water:
- Scale free UV quartz tube for better bacteria and Virus Killing
- Different taste of coffee and Tea
- Better hydration; water well absorbed in body
- Available for pipe diameter 1/2" to 6"

HOW IT WORKS AND OFFER SO MANY BENEFITS?

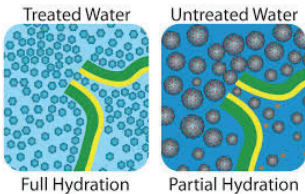

Anti-scale properties

Magnetic poles of the water passing through the magnetic device are activated so that positive Ca-ions and negative carbonates ions are attracted and collide. There by CaCo₃ crystals corresponding to Aragonite are formed, These are microscopically small and flow with the water instead of forming scale. So the water is Physically softened.

Benefits in water filter

- ▶ No scale on UV quartz tube to block the UV rays hitting the bacteria and virus for getting killed.
- ▶ No blockage of solenoid valve from scale in hard water.
- ▶ Better life of RO Membranes.

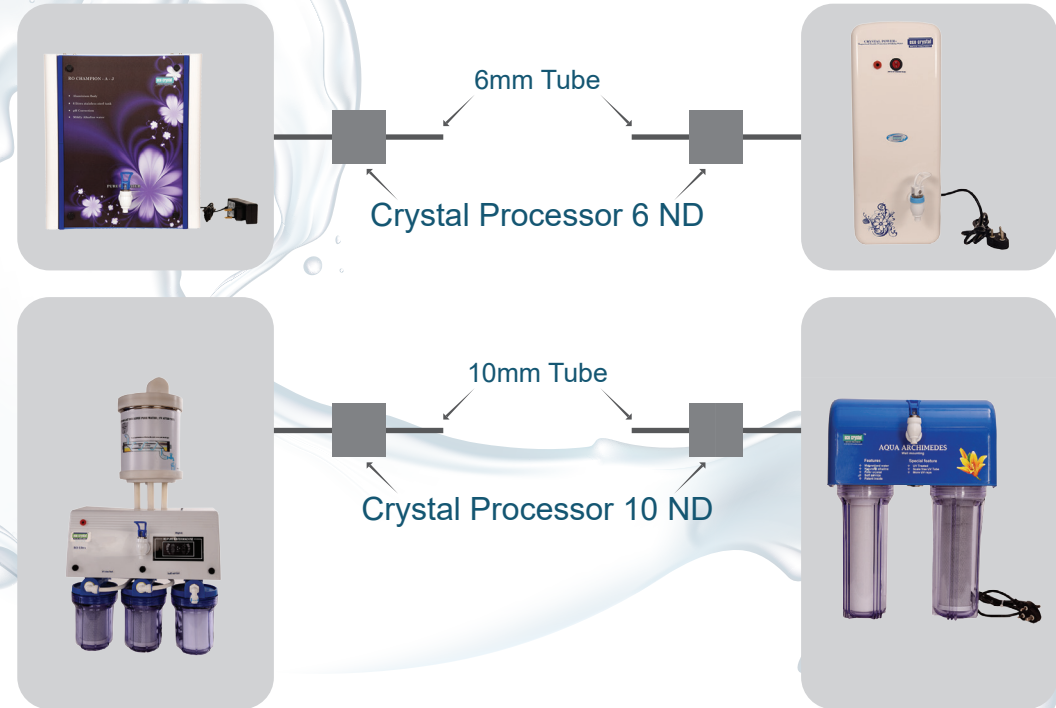

Benefits for health

- ▶ Many of the water molecules clusters in normal water, slough out the body's cell membrane due to bigger sizes resulting in dehydration or partial de-hydration, the bad effect of which on human body is well known. But when the water passes through the magnetizer installed in the system, the big clusters are broken into small clusters enter the cell membrane.
- ▶ It is very important that magnetic water that we drink to survive our every cell any organ are well absorbed in the body which makes our body well hydrated, also breaking up water clusters into smaller cluster. The result provides maximum healthy hydration with less water.
